

Addendum 2 to the ACR No. 14115 / 28th September 2020

Babeş-Bolyai University COVID-19 Protocol for Faculties

Rules to abide by during the academic activity:

Entering the building

Triage according to the triage protocol
Each entry into the UBB buildings will be equipped with hand disinfectants
All people entering UBB buildings must disinfect their hands upon entering
It is mandatory for everyone within the buildings, and outside if crowded, to wear masks at all times, according to the appropriate instructions
People must keep a distance of min. 1m at all times (students, teachers, inside, outside)
Marked access fluxes with dividers for classrooms and toilets, in faculties and dormitories
A classroom is declared isolation room for the cases in which a student/teaching staff/administrative personnel need medical attendance (related to COVID-19 symptoms) during the working hours

Students must wait only outside for their activity to begin
Posters containing clear instructions about protections upon entry in each classroom will be posted (mentioning the mask, 1m distance and hand disinfection)

Entering the classroom

Disinfection of surfaces in the classroom/laboratory before each seminar/laboratory
Students must enter the room only upon the beginning of the class (waiting in the classroom is not allowed)

Each classroom will have disinfectants
Students must disinfect their hands upon entering

Didactic activity

Students and teaching staff must declare and self-assess any COVID-19 symptom – apply the triage protocol
Teaching and administrative staff must not encourage the promotion and dissemination in the public area of the university of fake news on topics related to COVID-19

Max. 15 students + 1 member of the teaching staff are allowed in a laboratory at one time (<15 students in areas that are too small – the room's official capacity divided by 6)

Breaks

Changed breaks so that the max. no. of students on the hallways < surface of the hallways / 4 meters x no. of students
Disinfection of toilets in the faculties prior to each break
Disinfection of plane surfaces from the common areas at least 3 times/day
Mandatory disinfection of surfaces and equipment after use from students
Mandatory 30' ventilation of rooms between didactic activities
Food will be handled and consumed in solitude, with precaution and in compliance with the norms of hygiene
