

MESSAGE TO THE STUDENT COMMUNITY

The UBB leadership reiterates that the decision to suspend teaching activities was made in order to prevent the spread of Coronavirus, therefore the University appeals to the students' understanding that it is of utmost importance to use the electronic means of communication during this period.

Following the proposals made by the Coordination and Monitoring Group at the university level, the University encourages students, to the extent possible, to return home in order to reduce the spread of COVID-19 infection.

Students coming from yellow and red areas are required to notify the Public Health Directorate of Cluj County, their faculty and the administrator of the dormitory where they are accommodated. Students with flu symptoms are asked to remain in voluntary isolation in the dormitory for a period of 14 days. We also recommend to all students that they act calmly and responsibly, as any excessive concern or panic could hinder the development of activities under normal conditions.

For any requests for information addressed to the secretariats and other administrative departments, students are kindly asked to use the electronic means of communication.

Students who want information on situations related to COVID - 19 can call **0800800358**. Information on how the virus manifests, how to prevent the disease and other details related to preventive behaviour can be obtained by calling the number. The TELVERDE telephone line is strictly for informing citizens and is not an emergency number. In case of suspicion about people who have contacted the virus, these situations should be announced at the unique emergency number **112**.

Necessary and up-to-date information on the risk areas are provided on the website of the National Institute of Public Health:
