

Tematica

1. Vulnerabilitate socio-spațială și inegalități teritoriale în contextul schimbărilor climatice.
2. Metode GIS și analiză spațială aplicate în evaluarea impactului climatic asupra societății.
3. Dimensiuni comportamentale ale adaptării la schimbările climatice și reducerii amprente de carbon
4. Măsurarea percepțiilor, atitudinilor și determinantelor socio-psihologice ale răspunsului la schimbările climatice
5. Justiție climatică, gen și politici publice pentru adaptare și reziliență comunitară
