

Tematici concurs:

1. Validarea produselor satelitare specifice aerosolilor atmosferici prin măsurători la sol: dificultăți și incertitudini.
2. Reducerea incertitudinilor impactului radiativ al aerosolilor utilizând măsurători satelitare și măsurători la sol: tehnici inovative.
3. Analiza proprietăților aerosolilor situați deasupra norilor utilizând măsurători satelitare și simulări din modele climatice: prezentare generală.
